Subject: Project #26-10 Addendum #2

To keep all information consistent,

I am providing clarification on the following question asked on 03/10/2026 at 9:15 PM, for the IFB (#26-10) that was issued on 02/20/2026 at 1:30 PM.

Question #1: **What are you meaning by a reverse door?**

The answer: **When I say a Left-Hand Reverse door, I am meaning a left-hand door that would open toward a person standing in the breezeway**

Question #2: **Are you wanting a legitimate blueprint by a company submitted with bid?**

The answer: **We are not requesting formal, engineered blueprints. We are asking for a final drawing with plans and specifications that show how you developed your bid and how you propose to complete the project.**

Question #3: **Are we bidding guttering? If so what size?**

The answer: **No, you will not be bidding guttering on this project.**

Question #4: **It calls for 1/2" exterior sheathing. Osb, cdx, or zip plywood?**

The Answer: **The ½" sheathing shall be Zip plywood or equal**

Other Questions: **Are the roof trusses to have any overhang? If overhangs, aluminum soffit and fascia or metal?**

The answer: **The roof trusses are set to match the existing building with No Overhang.**

Please note that all work associated with Project #26-10 must comply with all applicable Illinois building codes as well as local requirements. Contractors must ensure that their bid reflects full adherence to both state and local code provisions.

Kind Regards,

Kaden Mollet
