MARION COUNTY HOUSING AUTHORITY

**Addendum No. 2 – RFQ #26-123 – Countywide Tree Removal**

**Issued: November 17, 2026**

This Addendum provides clarifications to the Request for Quotes (RFQ) in response to questions and requests for clarification received. The information contained herein shall be incorporated into the RFQ documents and shall supersede any conflicting information previously issued.

## Questions & Answers

**Question 1**: Are there disposal facilities located near the project sites for tree debris, brush, and wood waste?

**Answer 1:** Contractors should be aware that disposal facilities may be available within the local area; however, MCHA has not verified or designated any specific facility for this project. Contractors are responsible for identifying suitable disposal locations and confirming acceptance requirements, fees, operating hours, and any other conditions associated with disposal prior to use. All materials shall be disposed of in accordance with applicable federal, state, and local laws, regulations, and ordinances.

## Clarifications

**1. Existing Utilities and Obstructions**

Clarification was requested regarding stump removal in areas where underground utilities, utility appurtenances, or other subsurface obstructions may be present.

Where such conditions are encountered, the contractor shall grind stumps to the maximum practical depth achievable without causing damage to existing facilities and shall make every reasonable effort to complete the work to the greatest extent practicable.

Contractors are reminded that all required utility locates shall be obtained prior to commencing work and that any damage to existing utilities or property shall be repaired or replaced at no additional cost to MCHA, in accordance with the RFQ.

## Acknowledgment

Please ensure that Addendum No. 2 is acknowledged on your submitted quote for RFQ #26-123.
